Failure of Rains in Challakere, Hiriya and Molakalmuru.

*Q.—338. SRI B. L. GOWDA (Challakere).—

Will the Government be pleased to state :—

(a) Whether it has come to the notice of the Government that there has been continuous failure of crops for want of rains for the last 3-4 years, in Challakere, Hiriya, Molakalmuru and Eastern parts of Chitradurga Taluks in Chitradurga District;

(b) if so, the measures taken by Government to give relief to the ryots ;

(c) whether it has come to their notice that the relief works are inadequate and are stopped for the last three months ;

(d) whether it is a fact that there is great demand for starting fresh and more relief works ;

(e) whether it is a fact that in Challakere taluk some of the works are not started even though it is more than a year ;

(f) whether they have suspended or remitted the land revenue this year ;

(g) whether it is not a fact that the Challakere Taluk Board has repeatedly requested for the remission of the current year's land revenue?

A.—Sri M. V. KRISHNAPPA (Minister for Revenue).—

(a) Adverse seasonal conditions prevailed in these parts during the latter part of the year 1959-60 which continued during 1960-61 and early part of 1961-62 due to inadequate and untimely rains. The conditions, however, improved in the latter part of 1961-62 as good showers were received in September-October, 1961.

(b) The following measures were taken to meet the situation :

(1) Opening of relief works such as construction of, and repairs to Gokattes, desilting of tanks, deepening of drinking water wells, formation of roads, etc.,

(2) Grant of takavi and Land Improvement Loans and loans for construction of irrigation wells ;

(3) Remission of wet assessment under tanks which received inadequate supply of water ;

(4) Advances to Co-operative Societies for opening fair price shops and to deal in food grains and fodder during 1960-61 and 1961-62 ;

(5) Free grazing and cutting and removal of Kamara leaves in the State Forests were allowed ;

(6) Pilot projects for utilisation of rural manpower have been sanctioned in Molakalmuru and Challakere Blocks ;

(7) Soil Conservation works have been undertaken by the Department of Agriculture.

(c) Relief works which were taken up for execution by Revenue and P. W. D. agencies cover all the affected areas. As there was decline in the labour engaged on relief works from January to March, 1962, and as the labour was diverted to agricultural operations, the relief works could not be continued further.

(d) No. The labour is at present engaged in agricultural operations.

(e) No. Estimates for 57 works were sanctioned and the local officers were instructed to take up these works if there was any need to start fresh relief works. There were no demands for starting fresh works in this taluk.

(SRI M. V. KRISHNAPPA)

(f) Remission of half wet assessment in the case of tanks which received insufficient supply of water has been sanctioned.

(g) Yes. Taluk Board passed a resolution on 18th December 1961 to suspend the collection of Land Revenue.
